NEXT-GEN CARRIER ROCKET INDUSTRIALIZATION BASE

SETTLES DOWN IN TEDA

Recently, Tianjin Municipal Government and the Commission of Science, Technology and Industry for National Defense signed an agreement for the industrialization base of next-generation carrier rocket at Tianjin Guest House, marking the settle-down of this eye-catching project in TEDA.

R&D of the next-generation carrier rocket is a crucial part of China's aerospace sustainability development plan proposed by the Central CPC Committee and the State Council in hope of a major breakthrough in the country's carrier technology. The next-generation carrier rocket, as the main carrier type for China's future space missions, will reach the highest level in carrier capacity and reliability. Its TEDA industrialization base is expected to serve as a technology test-bed and a major hi-tech aerospace facility for mass production, industrialization, as well as civil-military programs. Covering 550,000 square meters of floor area, the project

involves a total investment of 4.5 billion yuan. Upon completion, it will positively contribute to the increasing demand of China's aerospace industry and play a facilitating role in other associated hi-tech sectors. (Tr. by Zhang Shanshan)

TAIDING (TIANJIN) ENVIRONMENTAL TECHNOLOGY CO., LTD.

SETTLES IN THE TEDA HANGU MODERN INDUSTRIAL PARK

Recently Taiding (Tianjin) Environmental Technology Co., Ltd. completed its construction and commenced its production in the TEDA Hangu Modern Industrial Park.

With a registered capital of 50 million yuan and a total investment of 100 million yuan, Taiding (Tianjin) Environment Technology Co., Ltd. was co-established by Jiin Yeeh Ding Enterprise Corp. of Taiwan, Shanghai ICON Electronic System Engineering Co., Ltd., and Tianjin LvTong Environmental Protection Engineering Equipments Development Co., Ltd. Located in the TEDA Hangu Modern Industrial Park and occupying a land of 30,000 m², the new company specializes in the efficient retrieval of precious metal in waste electronic components with a nonpollutive dissolution technology, which is featured by the recycle of chemical etch, and a high precision electrochemistry purification technology.

With a registered capital of 350 million NTD, Jiin Yeeh Ding Enterprise Corp. of Taiwan, one of the three parent companies, was founded in 1997 and headquartered in Hsinchu, Taiwan. As a company engaged in the retrieval and processing of electronic wastes, it has obtained the license for the disposal of the Class I Type A wastes of Taiwan and reached a relatively high technical level in the retrieval of printed circuit boards. ADMINISTRATIVE COMMISSION OF TEDA SIGNED A
COOPERATION AGREEMENT WITH SCHNEIDER LOGISTICS INC.
OF US

Recently the Administrative Commission of TEDA signed a cooperation agreement with Schneider Logistics Inc. of US in the Investment Service Center of TEDA.

Established in 1935, Schneider National Inc. is the largest truckload service provider. Its business mainly involves such five aspects as truckload business, transportation brokerage, intermodal, outsourcing services, and financial services. It provides logistics and transportation services to over two thirds of the Fortune 500 companies. In 2006 its net revenue reached 3.7 billion dollars. At present, it boasts 14,000 tractors, 60,000 trailers, and 15,000 drivers. Besides, it outsources its transportation business to nearly 12,000 contracted companies.

Schneider Logistics (Tianjin) Co, Ltd. was founded in Jan. 2007, with a total investment of 12 million dollars. It specializes in the third party logistics. Now it possesses 2,000 trucks at 26 operation centers, manages warehouses of over 160,000 m², and provides services like domestic transportation, transportation outsourcing, storage and distribution. Its clients come from sectors like consumables, auto parts, electrical home appliances, retail, manufacturing, etc. (Tr. by Chen Yu)

boasts nearly 9,400 employees, 500 distributors, and a nationwide sales network. Through actively establishing partnerships with JVs, business cooperators, distributors, integrators, and suppliers, it not only creates a win-win situation but

offers tens of thousands of employment opportunities. In the past two decades, Schneider Electric has paid taxes of 5 billion yuan to the Chinese government. (Tr. by Chen Yu)

TIANJIN'S SEW -EURODRIVE CELEBRATES 10 YEARS

IN TEDA

Recently, TEDA sees the solemn ceremony of celebrating the 10th anniversary of SEW-EURODRIVE (Tianjin) Co., Ltd. and SEW Industrial Gears (Tianjin) Co., Ltd., which is also the inauguration ceremony of SEW Precision Machines (Tianjin) Co., Ltd.

Established in 1931, Germany-based SEW-EURODRIVE is a world's leader in manufacturing gears and frequency inverters. It enjoys great reputation in the global market of drive systems. Since it entered China's market in 1997, SEW-EURODRIVE has set up its Asia-Pacific regional manufacturing base in TEDA and established manufacturing facilities and assembly centers in Suzhou, Guangzhou, Shenyang, Wuhan, and Xi'an. So far, SEW has made investment of USD\$ 400 million in China. Its annual sales income from producing gears for deceleration is 3 billion RMB yuan.

As SEW-EURODRIVE's only Asia-Pacific manufacturing center, SEW-EURODRIVE (Tianjin) Co., Ltd. uses a full range of imported equipment and technology and provides diversified good quality industrial gears, gearmotors, and frequency inverters to the customers from home and abroad, in line with the standard of SEW-EURODRIVE in Germany. In this Sept, SEW Precision Machines (Tianjin) Co., Ltd., the 110,000-square-meter factory as the third phase, starts production and will thus further enhance the production capacity of SEW-EURODRIVE (Tianjin)
